SHUTTER SYSTEM AND ADDITIONAL INSULATION COMBINED IN ONE SYSTEM

Kömmerling 88 AddOn centre seal

The Kömmerling AddOn aluminium compound sash impresses with its modern design and optionally integrated shutter system and sunshade. This not only provides greater integrated comfort, the additional pane also improves the thermal and sound insulation.

USER-FRIENDLY

- PVC-U window and door system with a construction depth of 88 mm
- Optional shutter system and sunshade located between the panes, where they are protected against the weather
- Can be used on PVC-U windows with aluminium cladding
- Increased sound insulation due to additional glass pane
- Improved handling ease and reliable functionality through the use of state-of-the-art technology
- Easy to clean, long-lived and robust

ADAPTABLE

- Almost unlimited range of colours of the aluminium cladding and aluminium compound sash due to finishing techniques such as anodised or powder finishing

SUSTAINABLE

- Thermal insulation due to additional glass pane
- Optimised use of materials, which therefore saves resources
- Eco friendly, lead-free stabilisers in the PVC virgin material
