

ELEGANCE WITH INTEGRATED THERMAL
INSULATION

**Kömmerling 88 centre seal
AluClip Pro**

The innovative Kömmerling 88 AluClip Pro centre seal window and door system combines the advantages of two materials in perfect harmony. In other words, the optimal thermal and sound insulation of PVC-U and the elegance, weather resistance and design diversity of aluminium. Additional effect: The aluminium functional cover AluClip Pro takes over the static function of the otherwise usual steel reinforcement in the sash profile – which additionally improves the thermal insulation.

INNOVATIVE

- High stability due to aluminium cladding
- The aluminium functional cover AluClip Pro takes over the static function so that no steel reinforcement is necessary in the sash profile
- Wide range of glazing variants up to 58 mm thick for the use of triple glazing or special functional glazing

USER-FRIENDLY

- Weather resistant, easy to clean and robust
- Excellent sound insulation
- High functional reliability

MORE DESIGN, MORE STATICS, MORE INSULATION

Kömmerling 88 centre seal
AluClip Pro

ADAPTABLE

- Straight lined, semi-offset window design with butt joined aluminium claddings
- Aluminium look outside, neutral PVC white inside
- Almost unlimited range of colours of the aluminium shells due to finishing techniques such as anodised and powder finishing

SUSTAINABLE

- Highly insulating centre seal system for windows and balcony doors with construction depth of 88 mm and aluminium claddings
- Much higher thermal insulation than aluminium windows
- Significant reduction of CO₂ emissions as well as high energy and cost savings
- Resource-saving handling of the materials PVC-U and aluminium
